

RIGMASTER MACHINERY LTD.

Model: E50AC Drawworks

Rigmaster Machinery E50AC Drawworks are built with a unique chain over planetary drive; c/w spring applied band parking brake and air applied armature parking brake. This combination allows for a super light flexible framed machine, IDEAL for use on mobile carriers, as well as conventional rigs.

Maximum Hoisting Capacities (lbs) (Approx.)

Duty Cycle	6 Lines	8 Lines
Hoisting	155,000	206,000
Running Casing or Stuck in the Hole	289,000	386,000

SPECIFICATIONS

Input Power	600 hp AC Motor
Max Single Line Pull	50,000 lbs
Drum Size (in)	18 x 40
Brake Rims (in)	42 x 8-1/2
Transmission	Rigmaster combination planetary gear drive with rationed input chain AC Motor (Dynamic)
Triple Braking System	Rotor Brake (Static & Emergency) Band Brakes (Static & Dynamic) <ul style="list-style-type: none"> • Rigmaster Hydraulic Brake Actuators • Asbestos free Brake Blocks
Brake Linkage Actuator	E30AC Hydraulic Actuator Spring Applied / Hydraulically Released
Drill Line Dia. (in)	1-1/8
Drum Shaft Dia. (in)	6-3/4
